Presents

Water System Operation Basics

(6 W CEC's offered)

The Water System Operation Basics Series is a set of classes that are designed to assist individuals who are new to the industry in learning about the basic operation and maintenance of a water utility system. This series of classes includes 3 hour modules on: Groundwater, Wells and Pumps, Distribution Systems, Math Basics, Water Treatment, Cross Connection, Operations & Maintenance and Regulations. These classes will help those who may be preparing to take the operator certification exam or serve as a refresher to experienced operators.

October 7, 2010
