## SAMPLING AND MONITORING

This class will teach participants about the essentials of sampling and monitoring for municipal water utilities. Water operators are faced with changing sampling schedules and challenges to maintain water quality and assuring public health. This class will cover newly implemented and emerging federal and state regulations with regards to sampling.

1. New Regulations
  - a. Groundwater Rule
  - b. New Total Coliform Rule
2. Collecting Safe Drinking Water Compliance Samples
  - a. Schedules, collection and documentation
3. Hexachrome-Background, Technologies and Implications
4. Virtual Laboratory Tour-What happens with those samples
5. What's on the Horizon
  - a. Unregulated Contaminant Monitoring Rule 2 (UCMR2)-findings
  - b. UCMR3-parameters and schedule
  - c. Perchlorate
  - d. Pharmaceuticals
  - e. Viruses

## PROGRAM GOAL

The goal of this class is to provide attendees with the knowledge to stay in compliance, evaluate the effectiveness of their sampling program and assure public health in their community.

### SPEAKERS

◦Northern Lake Service, Inc.  
RT Krueger, Paul Junio

◦WRWA  
Patrick Harrington
