WISCONSIN RURAL WATER ASSOCIATION PRESENTS

WELLS

(3 CONTINUING EDUCATION CREDITS)

Your well is the heart of your water system. You need to understand how to keep your well operating. This class will provide information on the operation and maintenance of the most common well pumps, well houses and pump rooms. This includes line shaft pumps and submersible pumps. This class will also provide information on the maintenance of discharge piping, valves, and chemical feed equipment. We will also cover other factors affecting water quality prior to the Entry Point of your water system.

SANITARY SURVEYS

(3 CONTINUING EDUCATION CREDITS)

Sanitary surveys of your water system occur every 3-5 years. Preparing for this inspection can be a stressful. This class will cover a similar "checklist" that the DNR uses to conduct a sanitary survey of your water system. Being prepared can save time and the worry of what needs to be in order for these inspections.

PRE-REGISTRATION REQUIRED NO FEE
