

Hands-On PVC Pipe Joining for Water and Wastewater Operators

April 15, 2026 ~ WRWA Technology Center, 351 Water Way, Plover, WI 54467
(3 Municipal Water/3 Wastewater Credits)

The room will open at 8:30 AM with the class starting promptly at 9:00 am. The class will end at 12:00 pm.

- Program Overview – Purpose, scope, and expectations under ASME B31.3 Section A328.
- Solvent Cementing Fundamentals – Basic principles, ASTM D2855 guidance, and proper installation practices.
- Joint Quality Review – Common causes of improperly welded, threaded, and flanged joints; inspection indicators and prevention.
- Threaded, Flanged, and Grooved Joint Installation – Correct procedures, best practices, and hands-on demonstrations for each joint type.
- Hands-On Joint Make-Up Practical – Participants complete joint assemblies; instructor evaluates workmanship and provides troubleshooting guidance.
- Short-Answer Test – Verification of understanding of installation principles and code requirements.

Instructors: Brenda Staudenmaier – *Wisconsin Rural Water Association*
Jerry Thompson *Technical Services Representative of Spears Manufacturing Company*
